Emerging Producers is an industry flagship project of the Ji.hlava International Documentary Film Festival and the only one of its kind designed for documentary film producers in Europe.

Every year 18 talented producers are selected (17 European and one representing a guest country - South Korea in 2022) and are provided with educational, networking and promotional support.

While the main part of the project takes place at Ji.hlava IDFF annually at the end of October and in Berlin in February, other activities and the promotion of Emerging Producers take place at major film events throughout the year.

The main objective of the programme is to interconnect talented European producers with other film professionals, especially those working in documentary cinematography. The project should also provide the participants with an easy access to information in the field of audiovisual industry, deeper and wider orientation in the film market but also help them to establish contacts with producers from other countries, and thus increase the potential of future European co-production projects.
